RECEIVED

MAY 29 1980

E.P.A. — D.L.P.C.  
STATE OF ILLINOIS

Gentlemen:

An investigation of an alleged violation of the Environmental Protection Act involving your property located off Watts Ave. in Rockton, IL was made on May 8, 1980, by Robert A. Wengrow and Dennis Cooner, representing this Agency.

You were contacted at the time of this investigation.

The investigation disclosed the following condition which constitutes a violation of the Illinois Environmental Protection Act and Chapter 7 of the Illinois Pollution Control Board Rules and Regulations on Solid Waste:

... Your facility appears to be a treatment site for special wastes. As such, you will eventually be required to obtain a valid operating permit from the Division of Land Pollution Control. For now, you should obtain a registration number. This can be accomplished by calling Mr. Dan Flynn at 217/782-6760. Industries and haulers utilizing your Company's services should be utilizing the manifest system.

In addition, it was learned that you generate an oily-type waste from your treatment process. This waste must receive a Supplemental Permit from this Division for disposal at an I.E.P.A.-permitted sanitary landfill.

I may be contacted by telephone at 987-7404 for discussion of the inspection or arrangements for reinspection.

Your cooperation in this matter is certainly appreciated. If this Agency can be of further assistance, please feel free to contact us.

Sincerely,

*Robert A. Wengrow*

Robert A. Wengrow, Rockford Region Manager  
Land Field Operations Section
